Router/combo or separates - [Solved]

2019/07/22

I have Comcast gateway. I use nighthawk router. The gateway has ONE Ethernet going into the router. (cable line into gateway).Am I using the gateway router for computer speed or the nighthawk? My cell phone connects to nighthawk for Internet. Speed on pc ranges about 200 mbps download. On cell sometimes ... 300 or less) Nothing is bridged..... ??? (which I don't understand, anyway) Was thinking of upgrading to fastest modem for 500mbps downloads. I don't know weather to buy combo gateway or just best modem (currently need phone service included— x finitely) ThanksHoward
