Connecting a ZTE pocket wifi to a router for home wireless network internet -
[Solved]

2019/07/20

I have a zte pocket wifi (mf 9745s) using sprint lte that I would like to connect to my wireless router (Linksys e2500 v1) w firmware (dd-wrt.v24-21061_NEW2-K2.6_big-nv60k.bin/3936) to then send internet to multiple wireless devices and a hard wired connection to a audio receiver. How do I go about accomplishing this with my current setup? I'm only interested in about 35mbps down, nothing crazy speedwise and not spending much on additional hardware if possible. I can flash a router but pretty clueless w all the setting options. I've set up very simple networks w broadband to modem to router but am a novice at best in this area and can't figure out the steps. I would greatly appreciate any expertise one would be willing to share.
