Router with a high degree of control - [Solved]

2019/07/03

Hi,I'm hoping someone can help me with some advice. I'm looking to replace my home wifi router with one that allows me control over user bandwidth (QoS?). My son is a gamer who constantly maxes out our connection, making it difficult for the rest of us. Ideally, the router would offer good wif speeds, decent number of fast LAN ports and a user-friendly UI. Our home network is quite busy, with up to 15 devices connected at any one time.Recommendations would be gratefully received. Thanks in advance.
