Weird lag while gaming

2019/08/06

I built a gaming computer and i have to use a usb wifi adapter to connect to the internet. I used to play on my sister's laptop using the wifi and the ping usually was 40 - 50, but after i finished my gaming computer when i play it the ping stays at 115 all the time (only in games) can it be being caused by the wifi adapter?

## **weak cell phone signal**
